

BLACK

A woman with long dark hair, wearing silver eye makeup and metallic finger rings, looking upwards with her hands near her face. The background is black.

SILK & STEEL
JEWELLERY

Black is a demi-fine collection of buildable pieces, inspired by the magic of the night sky and Silk&Steel's signature colour, black.

Black Diamonds, the hero in this collection, are both mysterious and precious, epitomising the essence of elegance with an edge.

Three necklaces feature in Black - **Midnight**, fine bar necklace set with 21 black diamonds, **Stella**, disc pendant with a black diamond centrepiece, and the **North Star** pendant necklace.

Luxury for the fingers includes the **Midnight** ring, with a row of 10 black diamonds, **Diamond Cut** stackers and **North Star** ring.

Fine-edgy-chic earrings are also a standout, with the **Eclipse** black diamond half-hoop earrings, a mix of stud and hoop in one design, taking centre stage. **North Star** studs and **Constellation** earrings, with four North Star drops, can be mixed and matched.

As with all Silk&Steel collections, pieces have been designed to seamlessly layer together or wear alone.

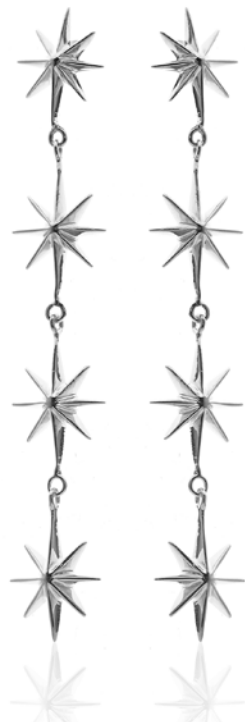

Ethically handcrafted by artisan, this limited edition collection has been made in sterling silver, plated in rhodium and 18k gold and hero designs set with genuine natural black diamonds.

Relaxed luxury never looked so good!
